The next Auckland VHF Group General Meeting

will be held on

Monday 14 October 2024

At the Clubrooms, 30 Hazel Avenue at 7:30 pm.

Speaker: Vaughan Henderson, - ZL1VH

Subject: "How to fit co-ax connectors" from F to N and PL259"

Auckland VHF Group President's Column

Matthew King –ZL1YOT

Hello members.

Recently the committee have had difficulties coming up with a speaker for the General Meeting. So if you have a topic you would like to present, give me a yell and I'll schedule a suitable date.

What I WOULD like to suggest is running classes for recent Hamcram graduates. To take them one layer deeper than the learning they have done. So a series of ten evenings covering propagation, oscillators, modulation, block diagrams of transmitters and receivers, power supplies, linear amps, antennas and transmission lines, safety, AREC, and whatever. Maybe build a little HF oscillator

We can promote this around the clubs, and draw people in from the wider Auckland.

Do we have any takers who are happy to speak on one or all of these topics? We could do it on a week night or a Sunday morning, with coffee and donuts?

At our upcoming elections Mark is standing down from editing Spectrum. Thanks very much, Mark, for handling this job. It's been quite a lot of work, mustering reluctant contributions and processing it all.

Looking forward to the elections, if anyone is keen to throw some energy into the committee it would be great to have you on board. We spend most of our meetings sorting finances, leases, and keeping track of what's going on. I'd like to thank the current committee, and hope you stay on. I'm happy to stay in my role if no one else wants to take it on. Could be good to have a fresh face at the table, though!

Cheers

670 Repeater Update by Vaughan ZL1VH

Vaughan ZL1VH gave a talk providing an update on the work being undertaken at the 670 repeater site, including a power point presentation and photos.

AEM (Auckland Emergency Management) have taken an interest in the Nihotupu site with the intent of tidying up any unused antennas.

Revision September2024 file update to v1.1:

- Update August 2024 General Meeting Notes to Jim ZL1DI as an apology. Notes as no quorum.
- Corrected Nihotupu spelling.
- Added abbreviation of AEM.
- Added attendees and numbers of persons in attendance.

Kaimai National System '850 Repeater

Reliability of the National System relayed via Kaimai was fully restored after a loan repeater was installed there on 25th May. A permanent replacement repeater, displayed at our June general meeting in Te Aroha, will take up residence on site along with replacement batteries after ground conditions dry out later this year.

Kaimai links Klondyke with the National System north and south and Hamilton '9975, Rotorua '9925 and via Edgecumbe '9975 to Mercury Bay '4800. Taupo '9825 also linked via Kaimai but appears to have a link Tx issue. Waitomo '9925 was linked via Kaimai, but that licence has been transferred to Mt Tuhua (N/E of Taumarunui) linking to Mt Egmont.

Tairua '6975 – end of an era

Originally established by the Waikato VHF Group in December 1983, this repeater has covered the eastern Coromandel peninsular from its Paul Road site for nearly 41 years. It was linked to Te Aroha '695 between 1987 and 1996, prior to responsibility for its operation and maintenance being transferred to Mercury Bay Branch 85 (currently in recess) during 2011, who linked it to their "Mercury Bay" '7075 repeater at Kakatarahae. Access to the Paul Road site has now been withdrawn, so the '6975 repeater and its associated link were removed from site on 27 August 2024.

Thanks to the Waikato VHF Group newsletter for these two items.

40m SDR

I'm a member of Marlborough Branch 22. I had this crazy idea that some members might like to give homebrew a go. To get things going I developed a simple 40M SDR kit.

The kit is brilliant ... but no one was interested.

To get some small economies I ordered enough bits for 20 kits.

I'm keen to sell the kits to recover my outlay. I'm selling for \$26 each which was what the parts cost to me.

Would any of your members have any interest??

There's a bit of info on the club's website ... <https://zl2ks.org.nz/wp/40mtr-homebrew-sdr/>

Gavin Petrie ZL1GWP — Silent Key

The Auckland VHF Group records with sadness the passing of Gavin ZL1GWP. In addition to the following from the Waikato VHF Group, Gavin was also an active member of the Hamilton Amateur Radio Club Branch 12 for many years and was their Webmaster as well as serving on their committee :

It is with much sadness that we record the passing of our Secretary Gavin Petrie ZL1GWP who became a silent key on 22 August 2024 at age 83 following a battle with Myeloma. Gavin joined our VHF Group in January 1984, and was elected Secretary at our 1986 AGM, retaining that position continuously throughout 38 years until his passing.

Born in Palmerston North, Gavin's family moved to Hawera after WW2 where he attended primary and secondary schools. In 1959, Gavin moved to Wellington to join the NZ Post Office as a radio technician. Over time, his career took him to Taupo, Rotorua, and eventually Hamilton where he completed his working life. In retirement, Gavin was active in Rotary International, as well as pursuing interests in genealogy and developing an extensive database of immigrant ships to New Zealand (published on his web site).

In addition to his own web site <https://sites.rootsweb.com/~shipstonz/index.htm> , Gavin was web master for several other web sites including our own www.zl1is.info, duties which were disrupted while he was confined by several hospital stays and undergoing chemotherapy.

Gavin's funeral was held on Monday 2nd September at Woollertons' Funeral Home, 8 Rainside Place (off Rifle Range Road, across the street from Classics car Museum)

Our sympathy is extended to his wife Ailsa and their children residing in New Zealand and Canada. Thanks for your valued service to amateur radio Gavin, RIP.

Do you have a contribution for Spectrum?

Any and all contributions, would be welcome.

I don't promise to publish everything I receive, but would be glad to receive suggestions or contributions.

INFORMATION

The Auckland VHF Group has an AREC Group that works closely with Auckland Council Emergency Management. They provide advice, resources and manpower to assist in times of need.

The AREC section is headed by Group Leader Matthew King ZL1YOT.

From time to time the VHF Group has training sessions and exercises. Members also assist with sports events, parades and other community activities. For further information about AREC please see the NZART web site: <http://www.nzart.org.nz/arec/>

JOIN BRANCH 66 AREC

All members of the Auckland VHF Group are encouraged to join the AREC section. Your contribution, large or small is appreciated by all involved.

For further information about joining Branch 66 AREC contact the Group Leader:

TRADING TABLE

Currently our Trading Table is only open on meeting nights.

NEW – Printed Circuit Board. Thanks to a generous donation from N.Z.'s last circuit board production company (now closed down), we have a large quantity of single sided fibreglass printed circuit board material in sizes ranging from 1200 x 600 down to smaller pieces. There's some double sided board as well. Come along to our monthly meeting if you want some – prices can be negotiated!

NEW – RG58C/U 50 Ohm Coaxial Cable. Thanks to a bulk purchase we are able to offer this good quality coax at a competitive price. The cable has tinned centre conductor and screen braid making it resistant to long term corrosion. The price is \$2.00 per metre with a discount for purchases of 20m or more. See Vaughan ZL1VH on meeting nights to get this quality coax cable.

The Trading Table is now on line. Navigate your way to our new look web site at <https://aucklandvhf.org/> and click on TRADING TABLE (the most right hand tab).

Wait a few seconds and the on-line version of the Trading Table will pop up. From here you can browse the various sections, dig deeper to look at what's available and even place your order online.

If you prefer to just look at the Trading Table List, just hover your mouse pointer over the TRADING TABLE and a pull down list will appear. From this you can access the full trading Table list and download it in .PDF form.

We also have heaps of parts from dismantled commercial analog TV gear – transmitters, filters, circulators, patch panels, power supplies. Too much to list individually, so come along to the clubrooms and have a look.
